

# STOP THE SLAUGHTER IN GAZA!

**Jews for  
Justice  
for Palestinians**

**WITH EVERY PASSING DAY** the death toll and destruction have risen. Israeli missiles, artillery shells and rockets have destroyed homes, shopping centres, markets, schools, mosques and medical facilities.

Israel planned its offensive during the preceding six-month ceasefire. Its blockade - endorsed by the British government and the Quartet - had already been strangling Gaza for over two years. Whatever Israel's stated justifications, this is a war against the **people** of Gaza. We utterly oppose it.

We stand with those who have opposed the slaughter from the start, calling for an end to this violence and the occupation that has bred it: the Palestinian human-rights community and the 540 Israeli academics, artists, writers and others who've supported its call; the 10,000 Israeli protesters on the streets of Tel Aviv; the 100+ UK Parliamentarians from different parties; and especially the joint petition from 1,800 residents of Sderot and Gaza.

**WE, JEWS WHO INSIST** on the humanity of all regardless of race or creed, call for:

- an immediate unconditional ceasefire
- an end to the blockade and the opening of dialogue with Hamas, without which there can be no durable peace
- UK condemnation of Israeli breaches of the Geneva conventions just as it has condemned Hamas rockets
- an investigation into war crimes that may have been committed by any party to the conflict
- an embargo on arms to Israel
- the suspension of the EU-Israel Association agreement until Israel fulfils the basic human-rights conditions on which it is predicated

Political problems demand a political not a military solution. The Parliamentary Foreign Affairs Committee recognized this in its July 2007 report, which recommended that the government should work to end the boycott of Gaza and open dialogue with Hamas.

———— The Palestinians are entitled to an end to occupation and the same peace and security that Israelis demand for themselves. ————
